Description: The theme is construction. Targeted age group is 2-4 years old. There is a base with movable wheels and magnets on top to

30

swap ~~interchangable~~ <sup>interchangeable</sup> parts. There are six different parts three front and three back that has moving parts. The plower has a movable arm, the roller has a rotating cylinder, the mixer can spin, and the loader can tilt. All edges will be filleted. Magnets can be embedded into print or glued. The toy will be large to prevent choking and increase strength so it can't break apart. All the interchangeable parts have magnets on the bottom. All movable parts will be "print-in-place."
